3. [] George Murphy, Joint Committee on Atomic Energy staff, called in connection with an article which appeared in a recent edition of a magazine, Nuclear Engineering International. The article has to do with a 2,300 ton nuclear merchant ship (Zan Than). According to Murphy, this vessel will also carry personnel. Captain Bauser, Committee Staff Director, would like any information we can give him on this.

4. [] James Gehrig, Staff Director, Senate Aeronautical and Space Sciences Committee, called to say that Senator Frank Moss (D., Utah) is the new Chairman of the Committee and he is anxious to acquire as much information as he can on both U.S. and Soviet space programs. Accordingly, Gehrig is scheduling briefings for him with NASA and DOD and would also like to schedule an Agency briefing. He proposes to arrange the other briefings on the 17th and 18th of January and would like to schedule our briefing on the 19th. He suggested Carl Duckett be the briefer, giving the Chairman a rundown on the type information that is available to us on Soviet space programs and how this information is used. He would then like a full-scale briefing on the Soviet space program including the best graphics available. He said the Chairman was quite willing to come to the Agency for this briefing. I told Gehrig I would see what we could arrange.

7. [] In response to the request from Doris Connor, Senate Armed Services Committee staff, I called Mr. Schlesinger's secretary, Evelyn, who told me that a draft biographic outline is on Schlesinger's desk and that she will have him review it and LDX it to our office for transmittal to the Committee this afternoon. Evelyn called me later and told me that Schlesinger had suggested that since he is located downtown, the 16 copies be forwarded directly to the Committee.
